A QUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times. "How can Brown's Iron Bitters cure éverything?" Well, it doesn't, But it does cure any disease for which a reputable physician would prescribe IRON Physicians reocgnize tron as the best restorative agent known to the profession, and inquiry of any leading obsention firm will substantiate the ascertion that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice, it is, however, a remarkable fact, that prior to the discovery of IRROWN'S IRON BITTERN no perfect, satisfactory iron combination had ever been found. BROWN'S IRON BITTERS does not injure headache, or produce constipation—all other Iron medicines de. HROWN'S IRON HITTERS cures Indigestion, Billionaness, Weakness, Dyspepsia, Malaria, Chille and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Henduche and Neural-gla—for all these ailments Iron is prescribed daily. BROWN'S IRON BITTERS, however, does bnuwn shunds like all other thorough medicines, it acts slowly. When taken by men the first symptom of benefit is renewed energy. The muscles then become firmer, the digration improves, the bowels are active, in somen the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's tron Bitters is the ONLY iron medicine that is not injurious, Physicians and Druggists recommend it.

THE MOLDERS' LOCKOUT.

STOVE MANUFACTURERS GO BACK ON THEIR OWN PROPOSITION.

The Trouble to Extend Over the Whole Country-President Fitspatrick, of the Iron Molders' Union, Interviewed on the Situation-Other Labor Troubles.

CINCINNATI, April 29.—The conference between President Fitzpatrick, of the iron molders' union, and President Cribben, of the Stove Manufacturers' Defense association and the other general officers, to effect a settlement of the St. Louis molders' strike, and a suspension of the general molders lockout, has proved fruitless. The Stove Manufacturers' association have refused the same proposition that they themselves male a few weeks ago in regard to the trouble at Bridge, Beach & Co.'s, St. Louis, namely: a 5 per cent, advance at once and a 5 per cent, advance June or July 1, if the price of stoves could be advanced. The molders' first de mand was for a 15 per cent. advance, but they were willing to compromise on 10 per cent.

President Fitzpatrick telegraphed Bridge, Beach & Co., March 28, If they would allow a 10 per cent. advance, and the firm replied that the matter was left entirely in the hands of Henry Cribben, president of the Defense association. By the refusal of the latter to now accept their own proposition a long lockout is now inevitable. "We are able to cope with the Defense association," said President Fitzpatrick to-day. "We offered to take their own terms to effect a settlement and they have refused. It confirms more than ever the impression abroad that there is some conspiracy to pool the price of stoves. A limited supply of an ar-ticle makes a big difference in the price. They certainly intended to shut down soon anyhow, and have made the molders' refusal to work on the obnoxious patterns a pretext. I received words of sympathy and encouragement from the secretary of the Fe.lerntion of Trades to-day and we can rely upon their support. It is remarked that the action of Powderly and the general executive board of the Knights of Labor in bolding the Detroit Knights of Labor molders at work on the taboord patterns is suspicious, but I think they will go out yet. I think Mr. Powderly means right. All the union molders in the Second district will now go out. We shall hold them in no longer. I understand the patterns are to be soon introduced in the First district, and, of course, none of our molders will work upon them."

President Cribben, of the Stove Manufacturers' association, returned to Chicago, today. The general executive board of the lron molders remain in session to-day, but all the officers will return to their homes tonight. They all express their regrets that the manufacturers would not accept their fair propositions, but state that they are as able, financially and otherwise, to carry on as active warfare as the stove manufac-

Cardinal Manning on the Knights. LONDON, April 29.—Cardinal Manning has written a special article with regard to the Knights of Labor, which will appear in the issue of The Tablet on Saturday next. Cardinal Manning says: "Unless the rights of labor can be denied the liberty of organization to protect these rights and the freed an founded on them cannot be denied. Toward the end of the last century the doctrines of political economy under the piea of free contract broke up the old relatio is between the employer and employe, and the conflict b+ tween capital and labor became perpetual. The power of capital is all flut irresistable, for the poor must labor for the bread of life; hunger lays the necessity upon the n, for the sake of their homes and themselves. When the law deased to lutervene, organizations for mutual defense straightway arose. The Knights of Labor and the British trades unions represented the rights of labor and the rights of association for its defense. conflict of capital and labor is not unequal. The freedom of contract whereon political economy glorifies itself hardly exists. It is surely their church's office to protect the poor and to protect labor, which has built up the human commonwealth."

PHILADELPHIA, April 29 .- Last night the Stove Molders' union of this city at a meeting adopted resolutions denouncing what they term the coercive measures adopted by their employers in trying to force them to use the St. Louis patterns. There were no further strikes in this locality yesterday, and no further trouble is anticipated.

The general executive board of the Knights of Labor met in this city for the purpose of taking some action for the prevention of further trouble between employers and em-ployes on account of the objectional Sc Louis patterns. None of those present at the meeting would say what action had been taken, but it is said that the plans for bringing about, a settlement of the present trouble among the stove molders were thoroughly discussed, but no satisfactory conclusion was

Window Glass Mannfacturers.

Pritsburg, April 39 .- As a result of the dispute between the window glass manufac-turers and the "teasers" and mixers in their employ, in reference to a demand for an increase of 10 per cent. In the wages of the latter, the mixers and "teasers" in every window glass house in this vicinity, at the close of yesterday's heat, 10 o'clock last night, went on a strike. About four hundred men are directly interested, but in all about twelve hundred men in all the districts will be thrown out of work on account the strike.

Boycotting Reer.

HAZLETON, Pa., April 29.—A committee of Knights of Labor visited all the saloon, hotel and restaurant keepers in this town yesterday and requested them from selling or handling beer manufactured by certain brewers in Philadelphia. All the keepers agreed to boycott the companies by not purchasing from them in the future, believing this to be a good way to bring the trouble to a speedy termination. The same request is to he made by the committee in all the towns and cities in Luzerne county.

Still Discussing Secession. OTTAWA, Ont., April 29.—In the house yesterday Mr. Welch, member for Prince Edward Island, in the course of debate told the government that unless the promises made by the union of provinces be main-tained to the very letter his province would withdraw from the confederation. He did not threaten secession, but simply pointed out what was the sure outcome of the feeling of unrest now prevailing there. He sald the confederation was a curse to Prince Edward Island and a sham generally. The province, if independent of the confederacy, would be one of the most prosperous communitles in Canada, if not in the world.

Mining Operations Suspended. PHILADELPHIA, April 29.—There is every probability that the anthracite producing companies will suspend mining for two weeks or more beginning May 1. The supplies of coal at Tidewater still accumulate in the domestic sizes. It is estimated that the excess of these sizes aggregate \$500,000 tons, and it must be reduced in order to get the consumers to lay in their supplies. There will be a meeting here to-morrow to ilx prices to the line and city trade. No change will be made in domestic sizes, but an advance in the mannfacturers' sizes will be discussed.

WASHINGTON DISPATCHES

NOT MUCH FOUNDATION FOR AN EX-TRA SESSION OF CONGRESS.

The Surplus Revenue Not as Dangerons as Has Been Reported-The War and Navy Department Watching England's Gun-Making Experiments-Capital Notes.

WASHINGTON, April 29.—There really does not seem to be much foundation for all the "extra session" talk that is again being indulged in. The only reason that there could be for calling an extra session would be to get an early reduction of the surplus revenue, which a good many people think is going to be piled up mountain high by the time congress meets again.

We are now within sixty days of the close of the fiscal year, and there are yet practi-cally \$20,000,000 of the 3 per cent. bonds out that may be called at any time. The accumulations of surplus are now going on at the rate of about \$10,000,000 a month. From July 1 to the date of the meeting of congress is five months.' The accumulations of surplus at the ordinary rate by that time would be about \$50,000,000. The treasury department, however, are required to buy, during the next fiscal year, \$44,000,000 of bonds for the sinking fund. These, at the rate of premium which it must pay, will cost about an even \$50,000,000. So it does not seem probable that the date for the regular meeting of congress will find the treasury with any accumulation of surplus. Of course it may take congress some time to devise a satisfactory plan for reducing the surplus, but even giving it three mouths to do this and It can do so if it desires in less than that time the accumulations need not be more than. \$25,000,000 or \$30,000,000; all of which could Be immediately put into circulation, if needed, by the purchase of bonds in the open market.

Hig Gnns and Heavy Armored Vessels. WASHINGTON, April 29.-The war and navy department people have been watching the recent experiments in big guns in England with a good deal of interest. Fast as the art of Iron ship building progresses the art of destruction keeps fairly ahead of it. England's war ships have iron armor two feet thick, backed by two feet more of teak wood. Yet the cannons that have been recently tested will put a ball twice as large as a man's head through this four feet of iron and wood as though it were made of work weighs 110 tons, and with its carriage weighs over 299 tons. It is forty-four feet long, and carries a ball which weighs 2,500 pounds, or as much as twenty average men. It can carry this ball, it is said, nearly ten miles. It takes almost a thousand pounds of powder, half a wagon load, to lire the guu once. The gun is twice as long as the width of the average residence in the average city. The "bore," or hole through which the ball is fired, is sixteen and a half inches in diameter, or big enough for a man to crawl into. It is capable, it is claimed, of sending a 2,500 pound ball through three feet of solid iron

Social Gossip.

Washington, April 20.—The leading gossip in social circles is the rumored engagement of Sir Lionei Sackville West, and Miss Mattle Mitchell, of Oregon, and further interest to the story iles in the fact that the marriage may be consummated abroad. Miss Mitchell sails for England May 7, and Sir Lionel joins his daughters abroad in June. So many of the foreign ministers here have had American wives that the prospect of a lady so generally admired as Miss Mitchell taking a leading position in the diplomatic circle, is without doubt the most interesting bit of goeslp heard in Washington for many a day. The Misses West left this morning for New York, whence they sail for England Saturday.

WASHINGTON, April 29.—A report by the United States minister at Athens referring to the recent departure of the Pensacolu, flagship of Rear Admiral Franklin, says that he cannot commend too highly the couduct and bearing of both officers and men. Their departure was much regretted by the Americans, as well as the people of Athens, Before leaving, the ship was visited by the king and royal family, who were dlned an l entertained on board, and members of the cabinet, foreign ministers and other distinguished persons. Admiral Franklin, Cap: Dowey, and other officers of the vessel were entertained at the palace by the king and

PARIS, April 20.-M. Herbette, the French embassabor at Berlin, has telegraphed M. Flourens, the minister of foreign affairs, an account of his interview with Count Herbert Bismarck last evening with regard to M. Schnabeles' arrest. M. Herbette says that Count Bismarck maintained that French territory had not been violated. He was inclined to admit, however, that the arrest was irregular and contrary to the Franco-German frontier convention of 1877. The count further stated that he would release Schnabeles when the letters of Herr Gautsch, the German commissary of police entions Schnabeles across the frontier, were proved to be authentic. M. AFTER MANY DAYS.

Bread Cast Upon the Water Brings a New Yorker \$50,000.

NEW YORK, April 29.- A remarkable peculiar story with more than ordinary tinge of romance came to light yesterday, when Col. Granger, a well known down-town business man, was notified that he had been left \$50,000 by a former Cincinnatian, Mr. Lemuel Stockbridge. Mr. Stockbridge was a cotton speculator, and resided in the Queen City when the late war broke out. He had occasion to visit Louisiana on a purchasing tour, and took his invalid wife with hlm. While in the Red river district, he was inclosed by the Federal lines and found it impossible to proceed. His wife 'grew very lll and her husband in his frantic endeavors to cross the lines came in contact with Mr. Granger, who was at that time an aide-decamp on the staff of Gen. Ullman.

Mr. Granger took pity on the invalid and ber husband, and furnished them with passports. Shortly afterward Mr. Granger was promoted for gallant service, and obtained a leave of absence. Accompanied by his wife he took the steamer at New Orleans, and was much surprised to find Mr. and Mrs. Stockbridge among his follow-passengers. Old friendships were renewed. While passing through Louisiana the Confederate sharpshooters fired on the steamer, and Mrs. Stockbridge again became vielently ill. The Grangers were again friends in needs, and when the families parted at Cincinnati they

were steadfast friends. Strangely enough, however, the Grangers never saw their strangely-found acquaintances again. Mr. Stockbridge amassed a fortune of \$3,000,000 and returned to his birthplace-Edinburgh, Scotland-where he died in 1384. He never forgot his beuefactors, however, and in his will bequeathed the sum of \$50,000 to Col. Granger. A firm of Scotch lawyers have, after a year and a half, definitely identified Col. Granger, and the money will be paid in a short time.

Both were drunk at the time of the quarrel, and slept together. Nelson is in custody, and will be held on a charge of murder.

A STARTLING TRAGEDY.

A PROHIBITIONIST INSTANTLY KILLED BY HIS POLITICAL ENEMIES.

Dr. Northup, of Haterhill, Ohlo, Shot to Death By Alfred McCoy, Postmaster, His Two Sons, and His Brother Thomas, a Dive Keeper-His Murderers Arrested.

PORTSMOUTH, O., April 29.—At Haverhill, a small town in the eastern part of Scioto county, on the Ohio river, Dr. W. T. Northup, a prominent physician and vice president of the Scloto County Medical society, day. was brutally murdered at 3 o'clock yesterday afternoon by Thomas McCoy, a saloonkeeper and his brother Alfred, the postmaster of Haverhill, aided by Pierson and James McCoy, sons of Alfred, and aged twenty and fifteen years. The McCoys are whisky Democrats, and Dr. Northup was a prohibition Republican.

The McCoys had always run the township things and was working hard to introduce glars and \$11,000 secured.

McCoys considered their political followed by a state of affairs that threatened to ruin their husiness, incurred their bitter hostility.

Yesterday afternoon the four McCoys, learning that Dr. Northup had neglected the precaution to arm himself-a measure that the doctor had adopted some time ago, in deference to his friends' wishes, who knew of the McCoys' enmity, lay in wait for hlm. Just as Dr. Northup reached a point on the street opposite the postoffice, Albert McCoy ran out and headed him off from reaching his office, the others meanwhile opening fire with shotguns upon the doctor from the house of Thomas McCoy.

The doctor attempted to rotreat to his office, but was intercepted by Alfred. Drawing his pocket knife the doctor stabbed the postmaster in the side, cutting him badly. Young Pierson McCoy, fearing their victim would escape, although he had been fired at eight times, three loads taking effect, ran from the house and up to the doctor, and placing his gun almost against his breast, fired both barrels, the loads passing entirely through the poor man's body and tearing out his heart.

W. A. Vandervest, of Grannan's Detective agency, of Cincinnati, who happened to be in the village visiting, was a witness to tho tragedy, but too far off to prevent lt. He succeeded in arresting Alfred McCoy, who was lying on the ground, bleeding from Northup's knife thrust, and put him in jail, and at once started in pursuit of the three others. He captured them late last night at a point several miles down the river. They are now safe in jail.

There is tremendous excitement over the bloody affair, and a lynching Is not un-

Dr. Northup was thirty-five years of age, had a large practice and many personal friends. He came from Galia county five years ago. He was engaged to be married to Miss Ella Oaks, daughter of Joshua Oaks, a wealthy farmer, at the time of his suddon

Alfred McCoy is badly wounded. He is a man thirty-seven years of age. His brother Thomas is thirty-five.
